Celebrating 50 Years of Sathya Sai Grama

A Legacy of Love, Learning and Service

From a modest beginning in 1973, rooted in values-based education, to a beacon of hope for the malnourished, the illiterate and poverty stricken and the sick, through selfless, free-of-charge services in Nutrition, Education & Healthcare, **Sathya Sai Grama** has touched countless lives over five decades.

The story of this remarkable journey is inseparable from the noble ideals and dedication of **Sri Madiyala Narayana Bhat** – an ardent devotee of **Bhagawan Sri Sathya Sai Baba,** whose pioneering vision, ably supported by Sri B N Narasimhamurthy's tireless efforts, laid its foundation in 1973.

Recognising the growing need for value-based education in rural Karnataka, Sri Madiyala Narayana Bhat spearheaded the establishment of a higher primary school and a high school in Muddenahalli, the birthplace of Bharat Ratna Sir M. Visvesvaraya.

5th Convocation
Sri Sathya Sai University for Human Excellence

On 29 July 2026, we celebrated the 5th Convocation of Sri Sathya Sai University for Human Excellence, marking a significant milestone in our mission and in the lives of over 119 students.

The ceremony was graced by His Highness Maharaja Yaduveer Krishnadatta Chamaraja Wadiyar (Member of Parliament, Mysuru-Kodagu & Head of the Mysuru Royal Family) as the Chief Guest, in the esteemed presence of Sadguru Sri Madhusudan Sai (Founder Chancellor, Sri Sathya Sai University for Human Excellence); Dr Srikanta Murthy K (Vice-Chancellor, Sri Sathya Sai University for Human Excellence); and Sri B N Narasimha Murthy (Chairman, Prashanthi Balamandira Trust).

A total of 119 graduates received their degrees, and outstanding students were recognised with gold medals. Seven eminent personalities from across six fields were conferred Honorary Doctorate.

> “His Highness Maharaja, Yaduveer Krishnadatta Chamaraja Wadiyar gave three watchwords to the graduating batch – curiosity, courage, and compassion. These should be the North Star for the students. When you step into the world to serve, as you have committed to, be curious to find answers to many unsolved, unanswered questions that still trouble humanity—be solution-givers and innovators. Keep the courage to stay true to your purpose of serving the society. And finally, allow your curiosity and courage to be driven by compassion, where you serve for the greater good of all humanity.”

Sri Madhusudan Sai
Revered Chancellor, Sri Sathya Sai University for Human Excellence

Guided by this year's theme, **Sarve Bhavantu Sukhinah (May All Be Happy),** the convocation reaffirmed that true education finds its highest purpose when it is dedicated to the service of others.

We extend our heartfelt gratitude to our donors, CSR partners, patrons, well-wishers, volunteers, faculty, staff, parents, and every supporter for your unwavering trust in us and in our mission.

We acknowledge the collective effort that made this milestone possible, and we look forward to a more impactful journey forward.

Blurring Divisions in the Knowledge Economy

The Vision 2035 of the **Sri Sathya Sai University for Human Excellence** reflects the foresight to prepare and act before it is too late, recognising agriculture, farmers, and nutrition as the lifeblood of society.

As a University that offers a **Diploma in Integrated Agricultural Sciences,** the University has taken a pioneering step towards caring for those who care for our farms. Through its flagship Farmers Certification initiative, the University seeks to formally recognise and honour the immense knowledge and expertise that farmers have acquired through generations of experience.

A Farmers Certification Committee, comprising experts in certification and traditional occupations, developed a pioneering framework aligned with ISO parameters to evaluate and accredit traditional agricultural expertise. Drawing insights from farmers, government agencies, and certification bodies, the Committee developed a robust and inclusive certification process.

A total of 180 farmers underwent rigorous assessment through practical evaluations and theoretical standards, of whom 138 successfully qualified for certification. At the University's Fifth Convocation, these 138 farmers were formally certified, including 12 women agriculturists.

This initiative challenges the conventional boundaries of the knowledge economy by recognising that knowledge is not confined to classrooms, textbooks, or academic institutions. The field knowledge of our farmers, refined through generations of observation, practice, and lived experience, is invaluable.

Our farmers deserve respect not merely for the physical labour they undertake, but for the vast reservoir of knowledge they carry, preserve, and pass on from one generation to the next. By bringing this traditional wisdom into the framework of formal recognition, the **University is taking a significant step towards blurring the demarcation between academic knowledge and experiential knowledge.**

Honouring the Teachers of our Sadguru

Guru Purnima Celebrations

Shining in the Light of the Guru | 29 July 2026

The word **Guru** signifies one who dispels the darkness of ignorance and kindles the lamp of wisdom. Throughout life, we learn from many gurus - our parents, teachers, mentors and the experiences that shape us. Yet, a true Guru goes beyond imparting knowledge; the Guru awakens the wisdom within, helps us discover our true nature and guides us towards a life of purpose and fulfilment.

On **29 July 2026,** the students and members of the **Sri Sathya Sai Loka Seva Gurukulam** community gathered to express their heartfelt gratitude to their revered founder, **Sadguru Sri Madhusudan Sai,** for the profound role he plays in their lives as a Guru. Through his love, guidance and teachings, he nurtures not only their intellectual growth but also their character, values and spiritual understanding, inspiring them to become compassionate individuals committed to the welfare of all.

Guru Purnima is, therefore, an occasion to express heartfelt gratitude for this most precious blessing - the guiding light that leads us from darkness to light, from ignorance to wisdom, and from the individual self to the realisation of our shared humanity.

“A true disciple spreads the work and message of the Guru by first sowing it in his or her own heart. Our heart is the field, and the Guru’s teachings are the seeds of right thought and right action. When these seeds are sown, cultivated and practised, they grow into a harvest. Merely speaking about the message without living it is not enough. Only when the teachings are practised does goodness truly spread.”
